

NATAVID

by NATAC

NATAVID is a high value-added grapevine extract obtained by means of the Full Plant Profile[®] technology developed by Natac. NATAVID is an integral grapevine extract and thus **gathers all the bioactive principles present in the plant**. NATAVID contains all the good of vine leaves, grape seeds and grape skin.

NATAVID's main phytochemical groups are flavonoids, anthocyanins, proanthocyanidins and stilbenes.

BIOLOGICAL ACTIVITIES

- **Improvement of chronic venous insufficiency** characterized by swollen legs, varicose veins, a feeling of heaviness, pain, tiredness, itching, tension and cramps in the calves.
- **Prevention of oxidative stress and chronic inflammation.**
- **Cardioprotective action:** antiatherosclerosis, antihyperglycemic and antihypertensive effect.

APPLICATIONS

- Nutricosmetic products for skin care
- Food supplements
- Feed additive

SPECIFICATION

- 50% Proanthocyanidins
- 10% Flavonoids
- 0.3% Resveratrol

Why settle for half the goodness when you can gather all the bioactive compounds of grapevine in one extract?

The Olive & Grape Expert

Natac is an award-winning Spanish company that develops and produces value-added **Mediterranean herbal extracts** with a focus on olive tree and grapevine-derived ingredients.

Among Natac's shareholders we count the world leaders in the production of olive trees and vine derivatives, both renowned Spanish companies. This allows us to develop and commercialize **the best olive and grapevine extracts at very competitive prices.**

Regarding olive, Natac develops and produces **extracts highly concentrated in oleuropein, hydroxytyrosol, and triterpenic acids** as well as other value-added ingredients such as **ALLOLIVE**, a Full Plant Profile extract.

In relation to grapevine, Natac extracts and purifies grape pomace, skin, seed and lees as well as vine stems and leaves, among other, to offer **high quality wine and vine-derived ingredients**. In addition, Natac has also developed a Full Plant Profile grapevine extract: **NATAVID**.

In our large capacity plant in the South of Spain we produce **the most requested Mediterranean extracts** as well as **tailor-made formulations** for clients looking to differentiate their products from the competition with unique ingredients.

In Madrid, our renowned R&D department is committed to constant innovation as evidenced by our revolutionary **Full Plant Profile® ingredients**: a new concept of extract developed by Natac that respects the original plant profile and dramatically improves effectiveness.

At Natac we supply scientifically documented ingredients and guarantee high production capacity and flexibility. We adapt to help you grow your business.

Check out our website and learn how Natac can help you add value to your products.
